Opus numbers. While the opus numbering system has long been the standard manner in which individual compositions are identified and referenced, it is far from universal, and there have been many different applications of the system. Very few composers gave opus numbers to all of their published works without exception: Some composers used it for certain genres of music but not for others (for ...

â€œReality Transurfingâ€•, a new book by Vadim Zeland, will undoubtedly cause a lot of debate as it is hard to think of a book with such shocking and innovative ideas. The book opens a bizarre world where everyday reality reveals facets which you are not familiar with. Many issues of day-to-day life are perceived in an absolutely new way.
