The day the Chinese proved their ability to shoot down a satellite in space, this became very relevant, said Townsend, referring to the 2007 incident, when China destroyed one of its defunct satellites with a missile. That, and the prevalence of jamming in the Middle East, has made meshed networks all the more important, he said.

The Brain in Space pdf - NASA

Each day in orbit (apart from rest days) is carefully planned by mission control. The times used by the crew are based on those at the mission control centres in Houston, Texas, or Moscow. The 12-hour working day on the International Space Station begins with a wake-up call.

ESA - Space for Kids - A day in space

food a person needs per day per person for life on Earth. Similarly, space scientists know what is needed to sustain life in space. (return) 2. On Earth, we often take for granted the role that plants play in the oxygen production/carbon dioxide removal process. In space, other methods are used to remove these by-products and to reclaim water ...

Living in Space - NASA

Over the past decade, the CompTIA Space Enterprise Council has held a forum series titled "A Day Without Space." In each forum, we've focused on a different business vertical (transportation, agribusiness, energy, etc.), explaining how the end users have embedded space assets into their portfolio, the economic benefits derived, and the ...
