

a distributed double loop pdf

This paper presents the design of the Distributed Double-Loop Computer Network (DDLCN), which is a local-area distributed computing system that interconnects midi, mini and micro computers using a fault-tolerant double-loop network.

The Distributed Double-Loop Computer Network (DDLCN)

ROUTING TABLES FOR MESSAGE ROUTING IN DISTRIBUTED DOUBLE LOOP NETWORKS Dulal C. Kar Department of Computing and Mathematical Sciences Texas A&M University-Corpus Christi

ROUTING TABLES FOR MESSAGE ROUTING IN DISTRIBUTED DOUBLE

A reliable loop computer network architecture, called optimal double loop, was proposed by Raghavendra et al. [15]. In the network, each node has a forward link connecting to its neighbor and a

A routing algorithm for distributed optimal double loop

A double loop feedback scheduler for distributed real time system is presented in [15], whose objective is to keep the deadline miss ratio to the desired value and achieve high CPU utilization ...

(PDF) Double-Loop Feedback-Based Scheduling Approach for

The purposes of this paper are to present a strictly optimal double loop, called distributed optimal local double loop (DOLDL) network, which has the minimum values of the diameter and/or average hop distance, and to: propose a class of the distributed routing algorithms for the DOLDL network.

DISTRIBUTED OPTIMAL LOCAL DOUBLE LOOP NETWORK - ScienceDirect

Abstract: A routing algorithm for distributed optimal double loop computer networks is proposed and analyzed. In this paper, the routing algorithm rule is described, and the procedures realizing the algorithm are given. The proposed algorithm is shown to be optimal and robust for optimal double loop.

A routing algorithm for distributed optimal double loop

This paper presents the framework and model of a network operating system (NOS) called MIKE for use in distributed systems in general and for use in the Distributed Double-Loop Computer Network (DDLCN) in particular.

MIKE: A Network Operating System for the Distributed

Single and Double Loop Learning Viviane M. J. Robinson Draft for Publication in Phillips, D (Ed.) Encyclopaedia of Educational Theory and Philosophy. Thousand Oaks, CA.: Sage Not to be distributed or copied. The distinction between single and double loop learning has entered the lexicon of writers in

Single and Double Loop Learning - University of Auckland

Double loop learning is built into many Agile processes, and it is the objective of the lessons learned process prescribed by the Project Management Institute Project Management Body of Knowledge. In

Double Loop Learning: A Powerful Force for Organizational

ing algorithm, called double-loop feedback scheduler, for distributed real-time systems, whose objective is to keep the deadline miss ratio near the desired value and achieve high CPU utilization.

Double-loop Feedback-based Scheduling Approach for

Note: Citations are based on reference standards. However, formatting rules can vary widely between applications and fields of interest or study. The specific requirements or preferences of your reviewing publisher, classroom teacher, institution or organization should be applied.
