In linguistics, grammar (from Greek: γράμμα) is the set of structural rules governing the composition of clauses, phrases, and words in any given natural language. The term refers also to the study of such rules, and this field includes phonology, morphology, and syntax, often complemented by phonetics, semantics, and pragmatics.. Speakers of a language have a set of internalized ...

A grammar school is one of several different types of school in the history of education in the United Kingdom and other English-speaking countries, originally a school teaching Latin, but more recently an academically-oriented secondary school, differentiated in recent years from less academic secondary modern schools.. The original purpose of medieval grammar schools was the teaching of Latin.
