C. Properties of Light What is light? This question has been debated for many centuries. The sun radiates light, electric lights brighten our darkness, and many other uses of light impact our lives daily. The answer, in short, is light is a special kind of electromagnetic energy. The speed of light, although quite fast, is not infinite.

lights to shade your subject with varied gradients. Three-point lighting, as described in the following sections, is a reliable approach to modeling your subject with light. In setting up a three-point lighting design, keep the goal of modeling with light in mind with each adjustment, and look at the modeling indicated in each test rendering.
