Raymond Robinson (October 29, 1910 – June 11, 1985) was a severely disfigured man whose years of nighttime walks made him into a figure of urban legend in western Pennsylvania. Robinson was so badly injured in a childhood electrical accident that he could not go out in public without fear of creating a panic, so he went for long walks at night.

Of the various modes of oscillation, our main interest is the first antisymmetric mode. This is because of two reasons: the first antisymmetric mode involves the largest amount of liquid mass movement, and as we will see in the following section, its frequency corresponds to the driving frequency (at least approximately).
