Reality-based community is a political label used to refer to those on the American Left who make political judgments based on present reality, in contrast with opposing factions which do not. The phrase can be pejorative or positive. It was first used by the George W. Bush Administration to criticize their opponents for limiting their vision to the way things were rather than including what ...

Augmented reality (AR) is an interactive experience of a real-world environment where the objects that reside in the real-world are "augmented" by computer-generated perceptual information, sometimes across multiple sensory modalities, including visual, auditory, haptic, somatosensory, and olfactory. The overlaid sensory information can be constructive (i.e. additive to the natural environment ...
