

accounting information for decision pdf

18 | CHAPTER TWO – Management Accounting and Decision-Making managerial technique requires an identifiable type of information. The accounting department will be expected to provide the information required by a specific tool.

Management Accounting and Decision-Making

An accounting as an information system (AIS) is a system of collecting, storing and processing financial and accounting data that are used by decision makers. An accounting information system is generally a computer-based method for tracking accounting activity in conjunction with information technology resources.

Accounting information system - Wikipedia

One simple definition of management accounting is the provision of financial and non-financial decision-making information to managers. According to the Institute of Management Accountants (IMA): "Management accounting is a profession that involves partnering in management decision making, devising planning and performance management systems, and providing expertise in financial reporting and ...
