Many existing wireless communication protocols such as IEEE 802.11 (i.e., WiFi) and ... we propose an adaptive CCC-based protocol for large-scale M2M networks. In order to improve channel ... We consider a large-scale M2M network with  $N = 60$  channels. The number of machines that intend to negotiate,

tive adaptive unequal importance video frame protection for large-scale P2P video streaming over mobile wireless network is proposed. The main features of the proposed algorithm are as follows:

This dissertation facilitates an "evolution cycle" for large-scale adaptive wireless networks. We believe that the solutions we present form a platform for future research initiatives that will help realize the successful operation of large-scale wireless networks of the future.

conformal antenna [23] has paved the way for deploying large-scale antenna arrays on aircraft. At the time of writing, however, there is a paucity of information on how much capacity can be offered by employing multiple antennas in aeronautical communications.
