Course Overview. This programme assumes that the student has completed the Higher Certificate in Systems Engineering with Richfield Graduate Institute of Technology or a similar institution.

Advanced Certificate in Systems Engineering - Richfield

Advanced Engineering Systems in Motion: Dynamics of Three Dimensional (3D) Motion from Georgia Institute of Technology. This course is an advanced study of bodies in motion as applied to engineering systems and structures. We will study the ...

Advanced Engineering Systems in Motion - Coursera

Systems engineering is an interdisciplinary field of engineering and engineering management that focuses on how to design and manage complex systems over their Life cycles. At its core, systems engineering utilizes systems thinking principles to organize this body of knowledge. The individual outcome of such efforts, an engineered system, can be defined as a combination of components that work ...

In today's global economy, the most successful engineering managers rely on a combination of technical skills and business principles. Industrial and systems engineering (ISE) aims at imparting fundamental knowledge to develop the ability to address complex industrial issues, highlighting how to design, run, control and optimise production systems.
