Lecture Notes | Aircraft Systems Engineering | Aeronautics

Aerospace engineers typically specialize in one of two types of engineering: aeronautical or astronautical. Aeronautical engineers work with aircraft. They are involved primarily in designing aircraft and propulsion systems and in studying the aerodynamic performance of aircraft and construction materials.

The AIAA Foundation Award for Excellence is the highest award presented by the AIAA Foundation Board of Trustees, recognizing excellence within the aerospace community. Submit an abstract for the AIAA Propulsion and Energy Forum by 31 January 2019.

American Institute of Aeronautics and Astronautics - Official Site

Aerospace engineering is the primary field of engineering concerned with the development of aircraft and spacecraft. It has two major and overlapping branches: Aeronautical engineering and Astronautical Engineering. Avionics engineering is similar, but deals with the electronics side of aerospace engineering.. Aeronautical engineering was the original term for the field.
