Unlike Waterfall project management, which is strictly sequenced: you don't start design until research is done and you don't start development until the designs are signed off on; agile has designers, developers and business people working together simultaneously.

AGILE

An agile project plan is a type of project plan that veers away from the usual planning methodologies that are incorporated in project management. With the usage of an agile project plan, the entire project team can focus more on project features and deliverable rather than the predetermined steps that can actually be affected within the development of the project processes.
