

air and space applications pdf

Gen. Jay Raymond, commander of Air Force Space Command and the Joint Force Space Component Command, speaks to cadets at the Air Force Academy to kick-off Warrior Weekend at Arnold Hall, Jan. 25, 2019.

Air Force Space Command > Home

Air Force Space Command (AFSPC) is a major command of the United States Air Force, with its headquarters at Peterson Air Force Base, Colorado. AFSPC supports U.S. military operations worldwide through the use of many different types of space operations. Operationally, AFSPC is an Air Force major command subordinate to U.S. Strategic Command (), a unified combatant command.

A space heater is a device used to heat a single, small area. In contrast, central heating is used to heat many connected areas, such as all the rooms in a house. Space heaters are powered either by electricity or by a burnable fuel like natural gas, propane, fuel oil, or wood pellets. Portable space heaters are usually electric because a permanent exhaust is needed for heaters that burn fuel.
