

culturology using organizational culture pdf

The circuit of culture is a theory or framework used in the area of cultural studies. It was devised in 1997 by a group of theorists when studying the Walkman cassette player. The theory suggests that in studying a cultural text or artifact you must look at five aspects: its representation, identity, production, consumption and regulation.

Vernacular culture is the cultural forms made and organised by ordinary, often indigenous people, as distinct from the high culture of an elite. One feature of vernacular culture is that it is informal. Such culture is generally engaged in on a non-profit and voluntary basis, and is almost never funded by the state
