

declarative agent languages and pdf

As discussed at the start of this chapter, the most fundamental part of a Pipeline is the "step". Basically, steps tell Jenkins what to do and serve as the basic building block for both Declarative and Scripted Pipeline syntax.

Pipeline Syntax

A constraint programming language is a declarative programming language where relationships between variables are expressed as constraints. Execution proceeds by attempting to find values for the variables which satisfy all declared constraints. Command line interface languages. Command-line interface (CLI) languages are also called batch languages or job control languages.

List of programming languages by type - Wikipedia

Prolog is a logic programming language associated with artificial intelligence and computational linguistics.. Prolog has its roots in first-order logic, a formal logic, and unlike many other programming languages, Prolog is intended primarily as a declarative programming language: the program logic is expressed in terms of relations, represented as facts and rules.

Prolog - Wikipedia

Given by ACM SIGPLAN to recognize an individual or individuals who has made a significant and lasting contribution to the field of programming languages.

Programming Languages Achievement Award - SIGPLAN
