Our crystal metaphysical directory is an extensive chart with over 400 crystals, minerals and stones listed alphabetically and with pictures of each so you can learn about the crystals you may already have but aren't sure of the name.

### **CRYSTAL MEANINGS – Buy Healing Crystals and Learn Crystal**

Liquid crystals (LCs) are a state of matter which has properties between those of conventional liquids and those of solid crystals. For instance, a liquid crystal may flow like a liquid, but its molecules may be oriented in a crystal-like way. There are many different types of liquid-crystal phases, which can be distinguished by their different optical properties (such as textures).

Abiogenesis, or informally the origin of life, is the natural process by which life arises from non-living matter, such as simple organic compounds. While the details of this process are still unknown, the prevailing scientific hypothesis is that the transition from non-living to living entities was not a single event, but a gradual process of increasing complexity that involved molecular self ...
