

### **educational psychology and human pdf**

Educational psychology is the branch of psychology concerned with the scientific study of human learning. The study of learning processes, from both cognitive and behavioral perspectives, allows researchers to understand individual differences in intelligence, cognitive development, affect, motivation, self-regulation, and self-concept, as well as their role in learning.

### **Educational psychology - Wikipedia**

Education is the process of facilitating learning, or the acquisition of knowledge, skills, values, beliefs, and habits. Educational methods include storytelling, discussion, teaching, training, and directed research. Education frequently takes place under the guidance of educators, but learners may also educate themselves. Education can take place in formal or informal settings and any ...

Differential treatment of students by race is well documented, and potentially driven by implicit processes relating to racial prejudice. To better understand some of the pathways by which racial prejudice may be

activated, we examined preservice teachers' racialized perceptions specific to emotion.
