Comparison of English portrait miniatures using Raman

reality canâ€™t. In the nineteenth century, the miniature was a popular form of portraiture in America. Portrait miniatures were used as portable keepsakes of family members and loved ones. These were more practical, and cheaper, than full-scale portraits. However, with the invention of photography, miniatures began to face serious competition.

When Miniatures and Photography Collide

Early English portrait miniatures in - Internet Archive

A portrait miniature is a miniature portrait painting, usually executed in gouache, watercolour, or enamel. Portrait miniatures developed out of the techniques of the miniatures in illuminated manuscripts, and were popular among 16th-century elites, mainly in England and France, and spread across the rest of Europe from the middle of the 18th-century, remaining highly popular until the ...

Portrait miniature - Wikipedia

Portrait miniatures first appeared in the 1520s, at the French and English courts. Like medals, they were portable, but they also had realistic colour. The earliest examples were painted by two Netherlandish miniaturists, Jean Clouet working in France and Lucas Horenbout in England.
