Evidence-based education is an approach to all aspects of education—from policy-making to classroom practice—where that is based on randomized trials, as with the testing of new drugs in evidence-based medicine. When several of these studies are compared, and their conclusions combined, we get a meta-study or meta-analysis. This is significantly more reliable than the results of individual ...

The burden of proof is the obligation of a party in an argument or dispute to provide sufficient evidence to shift the other party's or a third party's belief from their initial position. The burden of proof must be fulfilled by both establishing confirming evidence and negating oppositional evidence. Conclusions drawn from evidence may be subject to criticism based on a perceived failure to ...
