

fifty years of light pdf

Instrumentation for photometry, radiometry and colorimetry has developed significantly over the past fifty years. New measurement techniques and types of detectors as well as miniaturisation of computers and electronic hardware have fundamentally changed both the size, design and complexity of instrumentation and the way that we go about our measurement work.

Fifty years of development of light measurement

Nick Holonyak was sure the LED would replace the incandescent light bulb when he presented it to GE executives 50 years ago.

50 Years of LED Technology | WIRED
