Attention is the behavioral and cognitive process of selectively concentrating on a discrete aspect of information, whether deemed subjective or objective, while ignoring other perceivable information. It is a state of arousal. It is the taking possession by the mind in clear and vivid form of one out of what seem several simultaneous objects or trains of thought.

American Council on the Teaching of Foreign Languages

General Research Findings cont. 44% of American Fourth Graders cannot read fluently, even when they read grade-level stories aloud under supportive testing conditions. By Fourth Grade most children are fairly accurate but also very slow.

Reading Fluency: Tasks, Texts, and Teaching

A 4th-generation programming language (4GL) or (procedural language) is any computer programming language that belongs to a class of languages envisioned as an advancement upon third-generation programming languages (3GL). Each of the programming language generations aims to provide a higher level of abstraction of the internal computer hardware details, making the language more programmer ...
