Janet Frame was born in Dunedin in the south-east of New Zealand's South Island as the third of five children of Scottish New Zealander parents. She grew up in a working-class family. Her father, George Frame, worked for the New Zealand railways, and her mother Lottie (née Godfrey), served as a housemaid to the family of writer Katherine Mansfield.

So, what's the difference? Scale to Frame Size. The Scale to Frame Size option will resample your image at the size of the sequence. So, if you use this on an image that's double the width of the sequence, you end up with an image that's 1/4 of the original pixel size, while the Scale will be set to 100%.

One particular type of step-through frame is called a mixte. In a mixte frame, the top tube of the traditional diamond frame is replaced with a pair of smaller tubes (lateral tubes, or lats) running from the top of the head tube all the way back to the rear axle, connecting at the seat tube on the way. The normal seat stays and chain stays are retained.
