

### **future cities a fiction pdf**

In speculative fiction, floating cities and islands are a common trope, which range from cities and islands that float on water to ones that float in the atmosphere of a planet by scientific or magical means. While very large floating structures have been constructed or proposed in real life, aerial cities and islands remain in the realm of fiction.

While one can never predict the future with absolute certainty, present understanding in various scientific fields allows for the prediction of some far-future events, if only in the broadest outline. These fields include astrophysics, which has revealed how planets and stars form, interact, and die; particle physics, which has revealed how matter behaves at the smallest scales; evolutionary ...
